FRAMELESS SHOWER DOORS

2026 COLLECTION

MADE IN MONTERREY, MEXICO

NO TARIFFS · DELIVERED BY TRUCK

CABOBATHGROUP.COM

GLASS THAT NEVER GOES TO SEA

Cabo Bath Group supplies frameless shower doors made in Monterrey, the glass capital of Mexico, to volume buyers across the United States.

Tempered glass does not dent. It breaks. An Asian shower door spends weeks at sea and passes through crane after crane before it reaches a job site. Ours is loaded once at the factory, crosses the border at Laredo by truck and is unloaded once, at your site, in days.

No tariffs into the United States. A Cabo Cabinet Group brand, built on the same promise: factory direct, nearshore, on schedule.
